Specifications Renens

Renens station

Location plan

- S1** 1st half sampling point, underpass between the exit from tracks 2/3 and the north exit
- S1** 2nd half sampling point, on the footbridge at the exit toward Bahnhofplatz
- S2** Distribution point, station square, passage west
- P1** Promotion area, station square, passage west

Distribution points and promotion area

S1 1st half sampling point, underpass between the exit from tracks 2/3 and the north exit, max. 2 promoters

S1 2nd half sampling point, on the footbridge at the exit toward Bahnhofplatz, max. 2 promoters

S2 Sampling point, station square, passage west

Important sampling information

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.00 m for branded sampling containers. Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- Each sampling point is limited to a maximum of 4 promoters, each with one wheeled container for the goods to be distributed.
- With the splitted sampling point "S1" you benefit from a larger distribution radius and thus from more customer contacts. The maximum number of 4 promoters remains, i.e. a maximum of two per half sampling point.
- The wheeled containers may be brand-labelled (and so may beach flags etc.).

Distribution points and promotion area

P1 Promotion area, station square, passage west
 $4 \times 4 = 16\text{m}^2$
